SKILLS

Frontend
HTML5, CSS3, JavaScript (ES6+), React.js, JSX, Responsive Web Design

Backend
Node.js, Express.js, NestJS, Laravel, PHP, RESTful API Development

Databases & ORM
MongoDB, MySQL, PostgreSQL, Redis, Prisma ORM

Full-Stack Stacks
MERN Stack (MongoDB, Express.js, React.js, Node.js), Laravel + Inertia.js + React

Architecture & Concepts
Component-Based Architecture, API Integration, Authentication (JWT), Queue-Based Processing (Horizon)

TOOLS & TECHNOLOGIES

Version Control: Git, GitHub
Containerization: Docker
API Testing: Postman
Package Manager: npm
AI-Assisted Development: Claude Code
Dev Tools: VS Code
OS: Linux (Ubuntu)

LANGUAGES

English
Bangla

OTHER SKILLS

- Problem Solving
- Debugging
- Clean Code Practices
- Basic Cybersecurity Concepts
- SDLC Knowledge

MAJEDUL ISLAM

WEB DEVELOPER | SOFTWARE ENGINEER

PROFILE

Mid-Level Full-Stack Developer experienced across the MERN stack and Laravel/PHP ecosystems, with a strong track record of building and shipping production-grade applications end to end. Skilled in React.js, Node.js, NestJS, Express.js, and Laravel, backed by MongoDB, MySQL, and PostgreSQL. Proven ability to design REST APIs, architect component-based frontends, integrate and scale backend systems, and manage full deployment pipelines — including a SaaS ERP currently in development. Comfortable using AI-assisted tools like Claude Code to accelerate delivery without compromising code quality.

EDUCATION

B.Sc. in Computer Science & Engineering (CSE)
Daffodil International University
CGPA: 3.53 / 4.00 | Completed Coursework, Final Defense Pending (2026)

EXPERIENCE

Web Developer & MIS Administrator
Mountain Consumer Ltd. | Jan 2026 – Present

- Developing and maintaining company web applications and digital platforms.
- Built and manage The Bangladesh News (thebangladeshnews.com) using PHP, MySQL, HTML, CSS, JavaScript, and Bootstrap.
- Develop and maintain backend features, APIs, and database-driven functionalities.
- Manage deployment, website maintenance, and version control using Git and GitHub.
- Provide MIS support and optimize internal digital workflows.

Freelance Full-Stack Web Developer
Self-Employed | Jan 2024 – Dec 2025

- Delivered custom web applications for local and international clients using the MERN Stack.
- Built responsive frontend interfaces and scalable backend APIs.
- Implemented secure authentication, database integration, and application deployment.
- Successfully developed and delivered: protidinerbazar.com, dhakaassist.com

PROJECTS

Galaxy Consumer — SaaS ERP In Development
Live: app.galaxyconsumer.com

- Building a SaaS ERP platform using Laravel (backend + Horizon queues), PostgreSQL, Redis, Inertia.js, and React for the frontend.
- Single cohesive full-stack application with one deployment — no separate API layer to maintain, while retaining full React UI power.
- Using Redis for caching and queue-backed background job processing via Laravel Horizon.

Protidiner Bazar
protidinerbazar.com

- E-commerce platform built with full-stack features, responsive UI, and API integration.

Dhaka Assist
dhakaassist.com

- Service-based platform with custom frontend and backend development.

The Bangladesh News
thebangladeshnews.com

- PHP-based news portal with CMS, responsive design, and admin management.

QuickHire — Job Portal Web Application
Live: quick-job-eight.vercel.app | GitHub: github.com/majedul0/QuickJob

- Built a job portal platform where users can browse and apply for jobs.
- Developed frontend with React and implemented backend APIs for job listings and applications.

ChatBox — Real-Time Chat Application
Live: chatbox-mern.onrender.com | GitHub: github.com/majedul0/chatApp

- Developed a real-time chat application using the MERN stack with authentication and private messaging.

ShoeVista — E-commerce Shoe Store
GitHub: github.com/majedul0/ShoeVista

- Built a full-stack e-commerce platform using React (Vite), Express.js, and MongoDB with product listing, cart, and backend API integration.
